The image shows a modern exhibition booth for DROPnet. The booth is a curved, cylindrical structure with a glass wall and a white frame. Inside, there is a red sofa and a table. A man is sitting on the sofa, and another man is standing near the entrance. The booth is located in a large exhibition hall with other booths and people in the background. The lighting is bright and even.

DROPnet®

Textile ouvert en maille carrée, en 115 gr et 180 gr au m², classé non feu M1, pour réaliser des écrans, des signalétiques ou des décors intérieurs et extérieurs.

Drop Net[®] is a new indoor/outdoor fabric for screens, signs and scenery which meets fire resistant codes M1, class 1, B1, NFPA 701.

Sa composition sophistiquée permet l'impression numérique jet d'encre facilitée par un film de protection jetable. Sa mise en œuvre est simple. Le textile est suspendu et lesté depuis un tube aluminium dans un ourlet cousu ou tendu sur chassis.

This sophisticated substrate is designed for large format digital printing. It is easily used with its removable protective backing film. It can be installed by hemming a pole pocket on the top and a weight pocket on the bottom or stretched over a frame.

DROPnet®

MAILLE CARRÉE, SPÉCIAL JET D'ENCRE, CLASSÉ M1
POLYESTER MESH, FIRE RESISTANT FOR DIGITAL PRINTING
